- Presenters must agree to submit a final version of their presentation no later than August 15, 2008, in order to enable session moderators to prepare and prepare electronic format.
- Presentations must provide fresh insights or be of educational value to the audience. Presentations which are mere sales pitches and a marketing exercise, or which cater to narrow political, religious or activist views without much basis for open discussion will not be accepted.
- Presenters must conduct themselves in a professional manner and comply with the requests of session moderators before and during the presentation session.

- Proposals must include your name, full contact information, the organization and/or company that you represent, a brief description of your planned presentation including a title and two questions or statements that clearly illustrate it.

**Sponsorship** Those who support us in the form of sponsorship will take priority. Lead, Supporting and Contributing sponsors are usually given guaranteed speaking slots. Promotional sponsors will also receive priority treatment.

Still, if you are unable to sponsor this does in no way diminish your eligibility as a workshop presenter. Conversely, being a sponsor does not mean you can speak on whatever you wish at the event. Quality and sincerity remain our utmost concern and you will still expect us to choose only those presentations, which match our well-established high standard.

If you would like to present, please send a proposal that meets the above criteria in English to [frank@tbli.org](mailto:frank@tbli.org). For all other queries and information email to [Europe2008@tbli.org](mailto:Europe2008@tbli.org).

If you would like to be a corporate sponsor for TBLI CONFERENCE™ EUROPE
